## PART I

THIS ANNUAL REPORT ON FORM 10-KSB CONTAINS CERTAIN STATEMENTS WHICH ARE FORWARD-LOOKING STATEMENTS THAT ARE STATEMENTS THAT INCLUDE INFORMATION BASED UPON BELIEF OF THE COMPANY'S MANAGEMENT, AS WELL AS ASSUMPTIONS MADE BY AND INFORMATION AVAILABLE TO MANAGEMENT. STATEMENTS CONTAINING TERMS SUCH AS "BELIEVES", "EXPECTS", "ANTICIPATES", "INTENDS" OR SIMILAR WORDS ARE INTENDED TO IDENTIFY FORWARD LOOKING STATEMENTS. ACTUAL RESULTS, EVENTS AND CIRCUMSTANCES (INCLUDING FUTURE PERFORMANCE, RESULTS AND TRENDS) COULD DIFFER MATERIALLY FROM THOSE SET FORTH IN SUCH STATEMENTS DUE TO VARIOUS RISKS AND UNCERTAINTIES, INCLUDING BUT NOT LIMITED TO, THOSE DISCUSSED IN THE SECTION ENTITLED "RISK FACTORS THAT MAY AFFECT FUTURE RESULTS" IN ITEM 1 OF THIS REPORT AS WELL AS THOSE RISKS DISCUSSED ELSEWHERE IN THIS REPORT.

## ITEM 1. DESCRIPTION OF BUSINESS.

## OVERVIEW

The principal business of the Company is the acquisition, development, licensing and protection of its intellectual property. The Company presently owns six patents covering various telecommunications and data networking technologies. The Company's strategy is to pursue licensing and strategic business alliances with companies in industries that manufacture and sell products that make use of the technologies underlying its patents as well as with other users of the technologies who benefit directly from the technologies including corporate, educational and governmental entities.

On November 18, 2003, the Company acquired a portfolio of telecommunications and data networking patents (the "Patent Portfolio") from Merlot Communications, Inc., a broadband communications solutions provider. In

February 2004, following the acquisition of the Patent Portfolio and its review of applicable markets, the Company commenced initial efforts to license its patent (U.S. Patent No. 6,218,930) covering the control of power delivery over Ethernet cables (the "Remote Power Patent"). The Patent Portfolio consists of six patents (including the Remote Power Patent) issued by the U.S. Patent Office that relate to various telecommunications and data networking technologies and includes, among other things, patents covering systems and methods for the transmission of audio, video and data over local area networks (LANs) in order to achieve higher quality of service (QoS) and the control of power delivery over LANs for the purpose of remotely powering network devices.

2

## THE PATENTS

The Company's Patent Portfolio consist of the following patents:

U.S. PATENT NO. 6,218,930: APPARATUS AND METHOD FOR REMOTELY POWERING ACCESS EQUIPMENT OVER A 10/100 SWITCHED ETHERNET NETWORK;

U.S. PATENT NO. 6,577,631: COMMUNICATION SWITCHING MODULE FOR THE TRANSMISSION AND CONTROL OF AUDIO, VIDEO, AND COMPUTER DATA OVER A SINGLE NETWORK FABRIC;

U.S. PATENT NO. 6,574,242: METHOD FOR THE TRANSMISSION AND CONTROL OF AUDIO, VIDEO, AND COMPUTER DATA OVER A SINGLE NETWORK FABRIC;

U.S. PATENT NO. 6,570,890: METHOD FOR THE TRANSMISSION AND CONTROL OF AUDIO, VIDEO, AND COMPUTER DATA OVER A SINGLE NETWORK FABRIC USING ETHERNET PACKETS;

U.S. PATENT NO. 6,539,011: METHOD FOR INITIALIZING AND ALLOCATING BANDWIDTH IN A PERMANENT VIRTUAL CONNECTION FOR THE TRANSMISSION AND CONTROL OF AUDIO, VIDEO, AND COMPUTER DATA OVER A SINGLE NETWORK FABRIC; AND

U.S. PATENT NO. 6,215,789: LOCAL AREA NETWORK FOR THE TRANSMISSION AND CONTROL OF AUDIO, VIDEO, AND COMPUTER DATA.

The Company's future success is largely dependent upon its proprietary technologies, its ability to protect its intellectual property rights and consummate license agreements with respect to its Patent Portfolio. The complexity of patent and common law, combined with the Company's limited resources, create risk that its efforts to protect its proprietary technologies may not be successful. The Company cannot be assured that its patents will be upheld, or that third parties will not invalidate its patents. In August 2005, the Company commenced patent litigation against D-Link Corporation and D-Link Systems, Incorporated for infringement of the Company's patent covering remote delivery of power over Ethernet cables (US Patent No. 6,218,930) (See Risk Factors "We face uncertainty as to the outcome of litigation with D-Link").

The Remote Power Patent application was filed on March 11, 1999 and the patent was granted by the U.S. Office of Patent and Trademark on April 21, 2001. The Remote Power Patent expires on March 11, 2020.

As of March 24, 2005, the Company transmitted letters to approximately 85 companies offering licenses to the Remote Power Patent. To date the Company has not entered into any license agreements with third parties.

The Company was incorporated under the laws of the State of Delaware in July 1990. The Company's offices are located at 445 Park Avenue, Suite 1028, New York, New York 10022 and its telephone number is (212) 829-5770.

## MARKET OVERVIEW

Management has determined that the Company's initial licensing efforts will be focused on its Remote Power Patent. U.S. Patent No. 6,218,930 relates to several technologies which describe a methodology for controlling the delivery of power to certain devices over an Ethernet network.

The Institute of Electrical and Electronic Engineers (IEEE) is a non-profit, technical professional association of more than 360,000 individual members in approximately 175 countries. The Standards Association of the IEEE is responsible for the creation of global industry standards for a broad range of technology industries. In 1999, at the urging of several industry vendors, the IEEE formed a task force to facilitate the adoption of a standardized methodology for the delivery of remote power over Ethernet networks which would

insure interoperability among vendors of switches and terminal devices. On June 13, 2003 the IEEE Standards Association approved the 802.3af Power Over Ethernet standard (the "Standard"), which covers technologies deployed in delivering power over Ethernet cables. The Standard provides for the Power Sourcing Equipment (PSE) to be deployed in switches or as standalone midspan hubs to provide power to remote devices such as wireless access points, IP phones and network based cameras. The technology is commonly referred to as Power Over Ethernet ("PoE"). The Company believes its Remote Power Patent covers several of the key technologies covered by the Standard.

Ethernet is the leading local area networking technology in use today. PoE technology allows for the delivery of power over Ethernet cables rather than by separate power cords. As a result, a variety of network devices, including IP telephones, wireless LAN Access Points, web-based network security cameras, data collection terminals and other network devices, will be able to receive power over existing data cables without the need to modify the existing infrastructure to facilitate the provision of power for such devices through traditional AC outlets. Advantages such as lower installation costs, remote management capabilities, lower maintenance costs, centralized power backup, and flexibility of device location as well as the advent of worldwide power compatibility create the possibility of PoE becoming widely adopted in networks throughout the world.

PoE provides numerous benefits including quantifiable returns on investment. The cost of hiring electricians to pull power cable to remote locations used for access points or security cameras can rival or exceed the cost of the devices. Another key benefit is the need for Voice over IP power reliability in the face of power failures. Using PoE enables data center power supply systems to ensure on-going power - a function that would be difficult and expensive to implement if each phone required AC outlets.

These and other advantages such as remote management capabilities, lower maintenance costs, and flexibility of device location have led to forecasts that PoE will be widely adopted in networks throughout the world. International Data Corporation (IDC) forecasts that the annual PoE sales will reach 134 million PSE switch ports (does not include midspan ports) by 2008 which equates to a 5 year compound annual growth rate of 63%. Venture Development Corporation, a market research firm, expects the global market for PoE enabled solutions will grow to \$9 billion in 2008, a compound annual growth rate of 36%.

4

The benefits of PoE are compelling as evidenced by the introduction of products by such leading vendors as 3Com, Siemens, Nortel Networks and Avaya, as well as many others. In February 2004, Cisco Systems, Inc., the world's largest network switch manufacturer, announced that all of its switches will ultimately be PoE enabled. The Company believes the cost savings as well as the other benefits that can be realized by utilizing the technology contained in the Remote Power Patent may be of significant importance to the growth of the Wireless Local Area Networking (WLAN) industry and Voice Over IP Telephony (VOIP) industry.

The ability to supply power to end-devices through Ethernet cables can be applied to other end-devices, such as advanced security cameras, RFID card readers, laptop computers, personal digital assistants and portable digital music players. As the desire to connect more end-devices to the Ethernet network grows, the Company believes that PoE technology will become more widely used as a method to power these end-devices.

The Company also owns five (5) additional patents covering various methodologies that provide for allocating bandwidth and establishing Quality of Service for delay sensitive data, such as voice, on packet data networks. Quality of Service issues become important when data networks carry packets that contain audio and video which may require priority over data packets traveling over the same network. Covered within these patents are also technologies that establish bi-directional communications control channels between network-connected devices in order to support advanced applications on traditional data networks. The Company believes that potential licensees of the technologies contained in these patents would be vendors deploying applications that require the low latency transport of delay sensitive data such as video over data networks.

#### NETWORK-1 STRATEGY

The Company's strategy is to capitalize on its Patent Portfolio through entering into licensing arrangements with third parties including manufacturers and users that utilize the Patent Portfolio's proprietary technologies as well as any additional proprietary technologies covered by patents which may be acquired by the Company in the future. The Company will also seek to enter into licensing arrangements with users of the proprietary technologies, including corporate, educational and governmental entities in those cases where the patent

rights extend to the users of the technologies contained in manufactured products.

The Company does not anticipate manufacturing products utilizing the Patent Portfolio or any of the proprietary technologies contained in the Patent Portfolio. Accordingly, the Company does not anticipate establishing a manufacturing, sales or marketing infrastructure. Consequently, the Company believes that its capital requirements will be less than the capital requirements for companies with such infrastructure requirements.

In connection with the Company's activities relating to the protection of its Patent Portfolio, it may be necessary to assert patent infringement claims against third parties that the Company believes are infringing its Patent Portfolio, as is the case with the Company's litigation against D-Link (See "Item 3 Legal Proceedings - D-Link litigation").

5

## MARKETING AND DISTRIBUTION

In February 2004, the Company commenced licensing efforts for its Remote Power Patent. The Company believes that potential licensees include, among others, Wireless Local Area Networking (WLAN) equipment manufacturers, Local Area Networking (LAN) equipment manufacturers, Voice Over IP Telephony (VOIP) equipment manufacturers, and Network Camera manufacturers. In addition, the Company believes that additional potential licensees include users of the equipment embodying the PoE technology covered by its Remote Power Patent, including corporate, educational and federal, state and local government users, as they are significant beneficiaries of the technologies covered by the Remote Power Patent.

### ThinkFire Agreement

On November 30, 2004, the Company entered into a Master Services Agreement (the "Agreement") with ThinkFire Services USA, Ltd. ("ThinkFire") pursuant to which ThinkFire has been granted the exclusive (except for direct efforts by the Company and related companies) worldwide rights to negotiate license agreements for the Company's Remote Power Patent with respect to certain potential licensees agreed to between the parties. Either the Company or ThinkFire may terminate the Agreement upon 60 days notice for any reason or upon 30 days notice in the event of a material breach. The Company has agreed to pay ThinkFire a fee not to exceed 20% of the royalty payments received from license agreements consummated by ThinkFire on its behalf.

## POWER UP LICENSING PROGRAM

On September 8, 2005, the Company commenced a Power Up licensing program for its Remote Power Patent. Beginning September 8, 2005 for a limited period of time vendors of Power over Ethernet power sourcing equipment (PSE) and powered devices (PD) may license the Remote Power Patent at a substantial discount from the Company's standard reasonable and non-discriminatory royalty rates and a discount from standard license origination fees. Upon completion of the Power Up program, the Company will only offer licenses on its standard terms and conditions, which will include higher royalty rates and full license origination fees.

## LEGAL REPRESENTATION

In August 2005, the Company entered into an agreement with Blank Rome, LLP ("Blank Rome"), a national law firm, pursuant to which Blank Rome has been engaged to represent the Company in connection with all litigation involving the Remote Power Patent. Blank Rome has agreed to represent the Company with respect to each litigation pertaining to the Remote Power Patent on a full contingency basis (except for any proceeding before the International Trade Commission). As compensation for its services on a full contingency basis, Blank Rome will receive from the Company percentages of Net Consideration (as defined in the Agreement) ranging from 12.5% to 35% received by the Company by way of settlement or judgment in connection with each litigation matter. The Company has also agreed to compensate Blank Rome in an amount equal to 10% of the Net Consideration received by the Company from certain designated parties mutually agreed upon by the Company and Blank Rome (the "Designated Parties") in the event the Designated Parties enter into license agreements or similar agreements with the Company.

6

The Agreement may be terminated by either Blank Rome or the Company upon 30 days notice. If the Company elects to terminate the Agreement, it will compensate Blank Rome in an amount equal to 5% of the Net Consideration received by the Company from the Designated Parties with whom Blank Rome has not

commenced litigation on its behalf; provided, that such parties had substantive licensing or settlement discussions related to the Remote Power Patent during the term of the Agreement and entered into a license agreement or similar agreement with the Company providing for Net Consideration within the 12 month period following termination. In addition, in the event of termination, Blank Rome will receive its pro-rata share of Net Consideration based upon its hourly time charges with respect to parties against whom Blank Rome commenced litigation (or defended) on behalf of the Company. In the event the Company's agreement with Blank Rome is terminated, depending upon its financial resources at the time, the Company may need to enter into a contingent fee agreement with a new law firm in order to enforce and/or defend its Remote Power Patent and the Company' inability to secure such an arrangement on satisfactory terms and on a timely basis may have a material adverse effect on the Company's ability to achieve license arrangements with respect to its Remote Power Patent.

With respect to the Company's litigation with D-Link relating to the Remote Power Patent (see Item 3 "Legal Proceedings - D-Link Litigation"), in addition to the services of Blank Rome on a contingency basis, the Company has also retained the services of Potter Mitton, P.C. (Tyler, Texas) on an hourly basis to serve as local counsel.

## COMPETITION

The telecommunications and data networking licensing market is characterized by intense competition and rapidly changing business conditions, customer requirements and technologies. The Company's current and potential competitors have longer operating histories, greater name recognition and possess substantially greater financial, technical, marketing and other competitive resources than the Company. Although Management believes that the Company has enforceable patents relating to telecommunications and data networking, there can be no assurance that the Patent Portfolio will be upheld or that third parties will not invalidate any or all of the patents in the Patent Portfolio. In addition, the Company's current and potential competitors may develop technologies that may be more effective than the Company's proprietary technologies or that would render the Company's technologies less marketable or obsolete. The Company may not be able to compete successfully.

In addition, other companies may develop competing technologies that offer better or less expensive alternatives to PoE and the other technologies covered by the Patent Portfolio. Several companies have notified the IEEE that they may have patents and proprietary technologies that are covered by the Standard. In the event any of those companies assert claims relating to its patents, the licensing royalties available to the Company may be limited. Moreover, technological advances or entirely different approaches developed by one or more of its competitors or adopted by various standards groups could render the Company's Remote Power Patent obsolete, less marketable or unenforceable.

7

## EMPLOYEES AND CONSULTANTS

As of March 31, 2006, the Company had one full time employee, no part time employees and three consultants.

## RISK FACTORS THAT MAY AFFECT FUTURE RESULTS

The Company operates in a highly competitive environment that involves a number of risks, some of which are beyond the Company's control. The following discussion highlights the most material of the risks.

### WE HAVE A HISTORY OF LOSSES AND NO REVENUE FROM CURRENT OPERATIONS.

We have incurred substantial operating losses since our inception, which has resulted in an accumulated deficit of \$(44,321,000) as of December 31, 2005. For the years ended December 31, 2005 and 2004, we incurred net losses of \$(1,332,000) and \$(1,953,000), respectively. We have financed our operations primarily by sales of equity securities. Since December 2002, when we discontinued our security software products and following the commencement of our new technology licensing business in November 2003, we have had no revenue from operations for the years ended December 31, 2004 and December 31, 2005. Our ability to achieve revenue and generate positive cash flow from operations is dependent upon consummating licensing agreements with respect to our patented technology. We may not be successful in achieving licensing agreements with third parties and our failure to do so would have a material adverse effect on our business, financial condition and results of operations. We may not be able to achieve revenue or generate positive cash flow from operations from our new licensing business.

### WE COULD BE REQUIRED TO STOP OPERATIONS IF WE ARE UNABLE TO DEVELOP OUR

#### TECHNOLOGY LICENSING BUSINESS OR RAISE CAPITAL WHEN NEEDED.

We anticipate, based on our currently proposed plans and assumptions relating to our operations (including the timetable of costs and expenses associated with our continued operations), that our cash position of approximately \$2,034,005 at March 31, 2006 will more likely than not be sufficient to satisfy our operations and capital requirements until December 2007. However, we may expend our funds prior thereto. In the event our plans change, or our assumptions change or prove to be inaccurate (due to unanticipated expenses, difficulties, delays or otherwise), we could have insufficient funds to support our operations prior to December 2007. Our inability to obtain additional financing when needed, absent generating sufficient cash from licensing arrangements, would have a material adverse effect on the Company, requiring us to curtail or possibly cease our operations. In addition, any additional equity financing may involve substantial dilution to the interests of our then existing stockholders.

#### OUR LICENSING BUSINESS MAY NOT BE SUCCESSFUL.

In November 2003, we entered the technology licensing business following our acquisition of six patents relating to various telecommunications and data networking technologies including, among others, patents covering the delivery of remote power over Ethernet and the transmission of audio, video and data over computer and telephony networks. Accordingly, we have a limited history in the technology licensing business upon which an evaluation of our prospects and future performance can be made. Our prospects

8

must be considered in light of the risks, expenses and difficulties frequently encountered in the development, operation and expansion of a new business based on patented technologies in a highly specialized and competitive market. We may not be able to achieve revenue or profitable operations from our new licensing business.

#### OUR FUTURE SOURCE OF LICENSING REVENUE IS UNCERTAIN.

In February 2004, we initiated our first licensing efforts relating to the technologies in our remote power patent (U.S. Patent No. 6,218,930) (the "Remote Power Patent"). To date, we have not entered into any licensing agreements with third parties with respect to our Remote Power Patent or our other patented technologies. Our inability to consummate licensing agreements and achieve revenue from our patented technologies would have a material adverse effect on our operations and our ability to continue our business. In addition, in the event we consummate license arrangements with third parties, such arrangements are not likely to produce a stable or predictable stream of revenue in the foreseeable future. Furthermore, the success of our licensing efforts depends upon the strength of our intellectual property rights.

#### WE ARE CURRENTLY RELYING UPON THE EFFORTS OF THINKFIRE TO CONSUMMATE LICENSING AGREEMENTS FOR OUR REMOTE POWER PATENT WITH CERTAIN SELECT POTENTIAL LICENSEES.

On November 30, 2004, we entered into a Master Services Agreement (the "Agreement") with ThinkFire Services USA, Ltd. ("ThinkFire") pursuant to which we granted ThinkFire the exclusive (except for us and related companies) worldwide rights to negotiate license agreements for our Remote Power Patent with respect to certain potential licensees agreed to between the parties. Either we or ThinkFire can terminate the Agreement upon 60 days notice for any reason or upon 30 days notice in the event of a material breach. We have agreed to pay ThinkFire a fee not to exceed 20% of the royalty payments received from license agreements consummated by ThinkFire on our behalf. ThinkFire may not be successful in consummating license agreements on our behalf and even if such agreements are consummated they may not result in significant royalty payments to us.

#### OUR SUCCESS IS DEPENDENT UPON OUR ABILITY TO PROTECT OUR PROPRIETARY TECHNOLOGIES.

Our success is substantially dependent upon our proprietary technologies and our ability to protect our intellectual property rights. We currently hold 6 patents issued by the U.S. Patent Office that relate to various telecommunications and data networking technologies and include among other things, patents covering the transmission of audio, voice and data over computer and telephony networks and the delivery of remote PoE networks. We rely upon our patents and trade secret laws, non-disclosure agreements with our employees, consultants and third parties to protect our intellectual property rights. The complexity of patent and common law, combined with our limited resources, create risk that our efforts to protect our proprietary technologies may not be successful. We cannot assure you that our patents will be upheld or that third

parties will not invalidate our patent rights. In the event our intellectual property rights are not upheld, such an event would have a material adverse effect on us.

9

#### WE ARE CURRENTLY RELYING UPON OUR CONTINGENCY FEE AGREEMENT WITH BLANK ROME.

In August 2005, we entered into an agreement with Blank Rome, LLP ("Blank Rome"), a national law firm, pursuant to which Blank Rome has been engaged to represent us in connection with all litigation involving our Remote Power Patent. Blank Rome has agreed to represent us with respect to each litigation pertaining to the Remote Power Patent on a full contingency basis (except for any proceeding before the International Trade Commission). As compensation for its services on a full contingency basis, Blank Rome will receive from us percentages of Net Consideration (as defined in the Agreement) ranging from 12.5% to 35% received by us by way of settlement or judgment in connection with each litigation matter. We have also agreed to compensate Blank Rome in an amount equal to 10% of the Net Consideration received by us from certain designated parties mutually agreed upon by us and Blank Rome (the "Designated Parties") in the event such Designated Parties enter into license agreements or similar agreements with us.

The Agreement may be terminated by either Blank Rome or us upon 30 days notice. If we elect to terminate the Agreement, we will compensate Blank Rome in an amount equal to 5% of the Net Consideration received by us from the Designated Parties with whom Blank Rome has not commenced litigation on our behalf, provided that such parties had substantive licensing or settlement discussions related to our Remote Power Patent during the term of the Agreement and entered into a license agreement or similar agreement with us providing for Net Consideration within the 12 month period following termination. In addition, in the event of termination, Blank Rome will receive its pro-rata share of Net Consideration based upon its hourly time charges with respect to parties against whom Blank Rome commenced litigation (or defended) on our behalf. In the event our agreement with Blank Rome is terminated, depending upon our financial resources at the time, we may need to enter into a contingent fee agreement with a new law firm in order to enforce and/or defend our Remote Power Patent and our inability to secure such an arrangement on satisfactory terms and on a timely basis may have a material adverse effect on us.

#### ANY LITIGATION TO PROTECT OUR INTELLECTUAL PROPERTY OR ANY THIRD PARTY CLAIMS TO INVALIDATE OUR PATENTS COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR BUSINESS.

Our success depends on our ability to protect our intellectual property rights. In August 2005, we commenced patent litigation against D-Link Corporation and D-Link Systems, Incorporated for infringement of our Remote Power Patent (See below Risk Factors - "Uncertainty of outcome of D-Link Litigation"). In the future, it may be necessary for us to commence patent litigation against additional third parties whom we believe require a license to our patents. In addition, we may be subject to claims seeking to invalidate our patents, which will likely be asserted by D-Link as a defense in the pending litigation. These types of claims, with or without merit, may subject us to costly litigation and diversion of management's focus. If we are unsuccessful in enforcing and validating our patents and/or if third parties making claims against us seeking to invalidate our patents are successful, they may be able to obtain injunctive or other equitable relief, which effectively could block our ability to license or otherwise capitalize on our proprietary technologies. Successful litigation against us resulting in a determination that our patents are invalid would have a material adverse effect on us.

10

#### WE FACE UNCERTAINTY AS TO THE OUTCOME OF LITIGATION WITH D-LINK.

On August 10, 2005, we commenced litigation against D-Link Corporation and D-Link Systems, Incorporated in the United States District Court for the Eastern District of Texas, Tyler division (Civil Action No. 6:05W291), for infringement of our Remote Power Patent. Our complaint seeks, among other things, a judgment that our Remote Power Patent is duly enforceable and has been infringed by the defendants. We also seek a permanent injunction restraining defendants from continued infringement, or active inducement of infringement by others, of our Remote Power Patent. On February 27, 2006, the D-Link defendants filed answers and asserted counterclaims. In their answers, the D-Link defendants asserted that they did not infringe any valid claim of the Remote Power Patent, and further asserted that our asserted patent claims are invalid and/or unenforceable. In addition to these defenses, the D-Link defendants also asserted counterclaims for, among other things, non-infringement, invalidity and unenforceability of the Remote Power Patent. In the event that the Court

determines that our Remote Power Patent was not valid or enforceable, and/or that the defendants did not infringe, any such determination would have a material adverse effect on us.

#### MATERIAL LICENSING REVENUES FROM OUR REMOTE POWER PATENT MAY BE DEPENDENT UPON THE APPLICABILITY OF THE IEEE STANDARD.

The Institute of Electrical and Electronic Engineers ("IEEE") is a non-profit, technical professional association of more than 360,000 individual members in approximately 175 countries. The Standards Association of the IEEE is responsible for the creation of global industry standards for a broad range of technology industries. In 1999, the IEEE formed a task force to facilitate the adoption of a standardized methodology for the delivery of remote power over Ethernet networks which would insure interoperability among vendors of switches and terminal devices. In June 2003, the IEEE Standards Association approved the 802.3af Power Over Ethernet standard (the "Standard"), which covers technologies deployed in delivering power over Ethernet cables including whether deployed in switches or as standalone midspan hubs, both of which provide power to remote devices including wireless access points, IP phones and network based cameras. The technology is commonly referred to as Power Over Ethernet ("PoE"). We believe our Remote Power Patent covers several of the key technologies covered by the Standard. However, there is a risk that as a result of litigation a court may determine otherwise and such a determination would have a material adverse effect on our ability to enter into license agreements and achieve revenue and profits from our Remote Power Patent.

#### WE FACE INTENSE COMPETITION AND WE MAY NOT BE ABLE TO SUCCESSFULLY COMPETE.

The telecommunications and data networking market is characterized by intense competition and rapidly changing business conditions, customer requirements and technologies. Our current and potential competitors have longer operating histories, greater name recognition and possess substantially greater financial, technical, marketing and other competitive resources than us. Although we believe that we have rights to enforceable patents relating to telecommunications and data networking, there can be no assurance that third parties will not invalidate any or all of our patents. In addition, the telecommunications and data networking industries may develop technologies that may be more effective than our proprietary technologies or that render our technologies less marketable or obsolete.

11

#### OUR MARKETS ARE SUBJECT TO RAPID TECHNOLOGICAL CHANGE AND OUR TECHNOLOGIES FACE POTENTIAL TECHNOLOGY OBSOLESCENCE.

The telecommunications and data networking technology market including, transmission of audio, video and data over computer and telephony networks and the delivery of remote power over Ethernet markets, are characterized by rapid technological changes, changing customer requirements, frequent new product introductions and enhancements, and evolving industry standards. The introduction of products embodying new technologies and the emergence of new industry standards may render our technologies obsolete or less marketable. To the extent we are able to achieve revenue in the future, such revenue will be derived from licensing our technologies based on existing and evolving industry standards.

#### DEPENDENCE UPON CEO AND CHAIRMAN.

Our success is largely dependent upon the personal efforts of Corey M. Horowitz, our Chairman and Chief Executive Officer and Chairman of the Board of Directors. On November 26, 2004, we entered into a two (2) year employment agreement with Mr. Horowitz pursuant to which he continues to serve as our Chairman and Chief Executive Officer. We do not maintain key man life insurance on the life of Mr. Horowitz. The loss of the services of Mr. Horowitz would have a material adverse effect on our business and prospects.

#### RISKS RELATED TO LOW PRICED STOCKS.

Our common stock currently trades on the OTC Bulletin Board under the symbol NSSI. Since the trading price of our common stock is below \$5.00 per share, our common stock is considered a penny stock. SEC regulations generally define a penny stock to be an equity security that is not listed on Nasdaq or a national securities exchange and that has a market value of less than \$5.00 per share, subject to certain exceptions. SEC regulations require broker-dealers to deliver to a purchaser of our common stock a disclosure schedule explaining the penny stock market and the risks associated with it. Various sales practice requirements are also imposed on broker-dealers who sell penny stocks to persons other than established customers and accredited investors (generally institutions). Broker-dealers must also provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer

and monthly account statements disclosing recent price information for the penny stock held in the customer's account.

**THE SIGNIFICANT NUMBER OF OPTIONS AND WARRANTS OUTSTANDING MAY ADVERSELY AFFECT THE MARKET PRICE FOR OUR COMMON STOCK.**

As of March 24, 2006, there are outstanding (i) options and warrants to purchase an aggregate of 9,826,943 shares of our common stock at exercise prices ranging from \$.12 to \$10.13, and (ii) 7,630 additional shares of our common stock which may be issued in the future under our stock option plan. To the extent that outstanding options and warrants are exercised, stockholder percentage ownership will be diluted and any sales in the public market of the common stock underlying such options may adversely affect prevailing market prices for our common stock.

12

**WE HAVE A SIGNIFICANT AMOUNT OF AUTHORIZED BUT UNISSUED PREFERRED STOCK, WHICH MAY AFFECT THE LIKELIHOOD OF A CHANGE OF CONTROL IN OUR COMPANY.**

Our Board of Directors has the authority, without further action by the stockholders, to issue 10,000,000 shares of preferred stock on such terms and with such rights, preferences and designations as our Board of Directors may determine. Such terms may include restricting dividends on our common stock, dilution of the voting power of our common stock or impairing the liquidation rights of the holders of our common stock. Issuance of such preferred stock, depending on the rights, preferences and designations thereof, may have the effect of delaying, deterring or preventing a change in control. In addition, certain "anti-takeover" provisions in Delaware law may restrict the ability of our stockholders to authorize a merger, business combination or change of control.

**ITEM 2. DESCRIPTION OF PROPERTY**

The Company currently leases office space in New York City at a cost of \$3,150 per month. The lease is for six months with automatic renewals unless terminated upon 60 days notice.

**ITEM 3. LEGAL PROCEEDINGS**

**POWERDSINE SETTLEMENT**

On November 16, 2005, the Company entered into a Settlement Agreement with PowerDsine, Inc. (NASDAQ: PDSN) and PowerDsine Ltd. (collectively, "PowerDsine") which dismissed, with prejudice, patent litigation brought by PowerDsine against the Company in March 2004 in the United States District Court for the Southern District of New York that sought a declaratory judgment that our Remote Power Patent (U.S. Patent No. 6,218,930) was invalid and not infringed by PowerDsine and/or its customers.

Under the terms of the Settlement Agreement, the Company has agreed that it will not initiate litigation against PowerDsine for its sale of Power over Ethernet (PoE) integrated circuits. In addition, the Company has agreed that it will not seek damages for infringement from customers that incorporate PowerDsine integrated circuit products in PoE capable Ethernet switches manufactured on or before April 30, 2006. PowerDsine has agreed that it will not initiate, assist or cooperate in any legal action relating to the Remote Power Patent. The Company has also agreed that it will not initiate litigation against PowerDsine or its customers for infringement of the Remote Power Patent arising from the manufacture and sale of PowerDsine Midspan products for three years following the dismissal date. Following such three year period, the Company may seek damages for infringement of the Remote Power Patent from PowerDsine or its customers with respect to the purchase and sale of Midspan products beginning 90 days following the dismissal date of the litigation. The benefits afforded to PowerDsine under the Settlement Agreement will cease in the event PowerDsine institutes, assists or cooperates in any legal proceeding related to the Remote Power Patent adverse to the Company (unless otherwise required by law to do so) and PowerDsine customers will also forfeit benefits under the Settlement Agreement if they engage in similar action.

13

No licenses to use the technologies covered by the Remote Power Patent were granted to PowerDsine or its customers under the terms of the settlement. The Settlement Agreement further provides that PowerDsine is obligated to provide each of its customers with written notice of the settlement which notice shall disclose that no license for the Remote Power Patent has been provided to PowerDsine's customers and that in order to combine, modify or integrate any PowerDsine product with or into any other device or software, PowerDsine's customers may need to receive patent license(s) for such third party patents

which is the customer's responsibility. For the full text of the Company's Settlement Agreement with PowerDsine, see Exhibit 10.1 of the Company's Current Report on Form 8-K filed with the Securities and Exchange Commission on November 17, 2005.

#### D-LINK LITIGATION

On August 10, 2005, the Company commenced patent litigation against D-Link Corporation and D-Link Systems, Incorporated in the United States District Court for the Eastern District of Texas, Tyler division (Civil Action No. 6:05W291), for infringement of the Company's Remote Power Patent. The Company's complaint seeks, among other things, a judgment that its Remote Power Patent is enforceable and has been infringed by the defendants. The Company also seeks a permanent injunction restraining the defendants from continued infringement, or active inducement of infringement by others, of the Company's Remote Power Patent. On February 27, 2006, the D-Link defendants filed answers and asserted counterclaims. In their answers, the D-Link defendants asserted that they did not infringe any valid claim of the Remote Power Patent, and further asserted that the asserted patent claims are invalid and/or unenforceable. In addition to these defenses, the D-Link defendants also asserted counterclaims for, among other things, non-infringement, invalidity and unenforceability of the Remote Power Patent. On February 7, 2006, Judge Leonard Davis set a Markman hearing on claim construction for September 19, 2006 and set a trial date of March 7, 2007. In addition, at the proceeding, all of the outstanding motions to dismiss or transfer the case made by the defendants were denied by Judge Davis. In March 2006, the D-Link defendants filed a writ of mandamus to overturn the Court's decision to maintain the action in the Eastern District of Texas. The Company intends to vigorously oppose such writ. In the event the Court determines that its Remote Power Patent was not valid or enforceable, and/or that the defendants did not infringe any such determination would have a material adverse effect on the Company.

#### ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

THE FOLLOWING DISCUSSION AND ANALYSIS SHOULD BE READ IN CONJUNCTION WITH THE COMPANY'S FINANCIAL STATEMENTS, INCLUDING THE NOTES THERETO, INCLUDED ELSEWHERE IN THIS FORM 10-KSB. EXCEPT FOR THE HISTORICAL INFORMATION CONTAINED HEREIN, THIS DISCUSSION CONTAINS FORWARD-LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES, INCLUDING, BUT NOT LIMITED TO, THOSE DISCUSSED IN THE SECTION ABOVE ENTITLED "RISK FACTORS WHICH MAY AFFECT FUTURE RESULTS" IN ITEM 1 OF THIS REPORT AS WELL AS THOSE RISKS DISCUSSED IN THIS SECTION AND ELSEWHERE IN THIS REPORT. BECAUSE SUCH STATEMENTS INVOLVE RISKS AND UNCERTAINTIES, ACTUAL RESULTS MAY DIFFER MATERIALLY FROM THOSE EXPRESSED OR IMPLIED BY SUCH FORWARD-LOOKING STATEMENTS.

##### PLAN OF OPERATION

The principal business of the Company is the acquisition, development, licensing and protection of its intellectual property. The Company presently owns six patents covering various telecommunications and data networking technologies (the "Patent Portfolio") including, among others, patents covering the delivery of power over Ethernet for the purpose of remotely powering network devices, and the transmission of audio, video and data over computer and telephony networks. The Company's strategy is to pursue licensing and strategic business alliances with companies in the industries that manufacture and sell products that make use of the technologies underlying its patents as well as with other users of the technology who benefit directly from the technology including corporate, educational and governmental entities.

On November 18, 2003, the Company acquired the Patent Portfolio from Merlot Communications, Inc., a broadband communications solutions provider. In February

16

2004, following its review of applicable markets, the Company initiated licensing efforts relating to one of its patents (U.S. Patent No. 6,218,930) covering the remote delivery of power over Ethernet cable (the "Remote Power Patent"). The Company has focused, and will continue to focus, its efforts on licensing its Remote Power Patent. As of the date of this report, the Company has not entered into any license arrangement with respect to the Remote Power Patent, although it is pursuing such arrangements with third parties. During the next 12 months, management does not anticipate licensing efforts for its other patents besides the Remote Power Patent.

To date the Company has incurred significant losses and at December 31, 2005 had an accumulated deficit of \$(44,321,000). For the year ended December 31, 2005, the Company incurred a net loss of \$(1,332,000) and incurred a net loss of \$(1,953,000) for the year ended December 31, 2004. Management anticipates that the Company will continue to incur losses until it enters into material license agreements with respect to its patented technologies. The Company has not achieved any revenue from its technology licensing business. To date the Company has not entered any licensing agreements with third parties with respect to its Remote Power Patent or the Company's other patented technologies. The Company's inability to consummate license agreements and achieve revenue from its patented technologies would have a material adverse effect on its operations and its ability to continue business.

The Company does not currently have any revenue from operations. The success of the Company and its ability to generate revenue is largely dependent on its ability to consummate licensing arrangements with third parties. In November 2004, the Company entered into an agreement with ThinkFire Services USA, Ltd. ("ThinkFire") pursuant to which ThinkFire has been granted the exclusive worldwide rights to negotiate license agreements for the Remote Power Patent with certain agreed-upon potential licensees. The Company has agreed to pay ThinkFire a fee not to exceed 20% of the royalty payments received from license agreements consummated by ThinkFire on its behalf.

The Company's success depends on its ability to protect its intellectual property rights. In August 2005, the Company commenced patent litigation against D-Link Corporation and D-Link Systems, Incorporated for infringement of its Remote Power Patent (see Risk Factors - "We face uncertainty of outcome of litigation with D-Link"). In the future, it may be necessary for the Company to commence patent litigation against third parties whom it believes require a license to its patents. In addition, the Company may be subject to third-party claims seeking to invalidate its patents, which have been asserted as a defense in the pending D-Link litigation (See Risk Factors - "We face uncertainty of the outcome of litigation with D-Link") against the Company relating to the Remote Power Patent as discussed below. These types of claims, with or without merit, may subject the Company to costly litigation and diversion of management's focus. In August 2005, the Company engaged Blank Rome LLP as litigation counsel with respect to the Remote Power Patent on a contingency basis pursuant to which Blank Rome is entitled to share in the proceeds of any successful enforcement of the Remote Power Patent (See Risk Factors - "We are currently relying upon our contingency fee agreement with Blank Rome"). If third parties making claims against the Company seeking to invalidate its patent are successful, they may be able to obtain injunctive or other equitable relief, which effectively could block its ability to license or otherwise capitalize on its proprietary technologies. Successful litigation

17

against the Company resulting in a determination that its patents are invalid would have a material adverse effect on the Company.

The Company has financed its operations primarily from the sale of equity securities. On December 21, 2004 and January 13, 2005, the Company completed a private offering of its equity securities resulting in gross proceeds of \$2,685,000. In addition during the first quarter of 2006 the Company received \$1,493,726 of cash proceeds from the exercise of warrants issued in December 1999. The Company anticipates, based on currently proposed plans and assumptions, relating to its operations, that its cash and cash equivalents of approximately \$2,034,005 as of March 31, 2006 will more likely than not be sufficient to satisfy the Company's operations and capital requirements until December 2007. There can be no assurance, however, that such funds will not be expended prior thereto. In the event the Company's plans change, or its assumptions change, or prove to be inaccurate (due to unanticipated expenses, difficulties, delays or otherwise), the Company may have insufficient funds to support its operations prior to December 2007. The Company's inability to consummate licensing arrangements with respect to its Remote Power Patent and generate revenues therefrom on a timely basis or obtain additional financing when needed would have a material adverse effect on the Company, requiring it to curtail or cease operations. In addition, any equity financing may involve substantial dilution to the current stockholders of the Company.

#### CRITICAL ACCOUNTING POLICIES:

##### Patents:

The Company owns a patent portfolio that relates to various telecommunications and data networking technologies. The Company capitalizes the costs associated with acquisition, registration and maintenance of the patents and amortizes these assets over their remaining useful lives on a straight-line basis. Any further payments made to maintain or develop the patents would be capitalized and amortized over the balance of the useful life for the patents.

On January 18, 2005, the Company and Merlot amended the Patent Purchase Agreement pursuant to which the Company paid additional purchase price of \$500,000 to Merlot Communications, Inc. ("Merlot") in consideration for the restructuring of future contingent payments to Merlot from the licensing or sale of the Patents. Such \$500,000 has been recorded as an expense in the accompanying statement of operations.

Impairment of long-lived assets:

In accordance with Statement of Financial Accounting Standards ("SFAS") No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", the Company records impairment losses on long-lived assets used in operations or expected to be disposed of when indicators of impairment exist and the cash flows expected to be derived from those assets are less than carrying amounts of those assets.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make

18

estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS:

See Note B on page F-7 through F-10 to the Financial Statements.

ITEM 7. FINANCIAL STATEMENTS

The financial statements required hereby are located on pages F-1 through F-19 which follow Part III.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 8A. CONTROLS AND PROCEDURES.

(a) Evaluation of Disclosure Controls and Procedures.

The Company's Chief Executive Officer and Chief Financial Officer have reviewed the disclosure controls and procedures of the Company as of the end of the period covered by this Annual Report on Form 10-KSB. Based upon this review, these officers concluded that, as of the end of the period covered by this Annual Report on Form 10-KSB, the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in applicable rules and forms and is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

(b) Changes in Internal Controls.

There were no significant changes in the Company's internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect these controls during the last fiscal quarter included in this report or from the end of the reporting period to the date of this Annual Report on Form 10-KSB.

Mr. Greene has also held positions at System Management ARTS (SMARTS), Computer Associates, Cheyenne Software and Data General.

21

#### COMMITTEES OF THE BOARD OF DIRECTORS

Harry Schessel and Robert Graifman are the current members of the Audit Committee and served on the Audit Committee during 2005. Mr. Graifman is the audit committee financial expert. The Audit Committee meets with the Company's independent auditors at least annually to review the scope and results of the annual audit; reviews with the Company's independent auditors the Company's quarterly reports on Form 10-QSB prior to filing, recommends to the Board the independent auditors to be retained; and receives and considers the auditors' comments as to internal controls, accounting staff and management performance and procedures in connection with audit and financial controls. The Audit Committee has adopted a written Audit Committee Charter. Robert Pons and Laurent Ohana are current members of the Company's Compensation Committee. Mr. Pons served as the sole member of the Compensation Committee until joined by Mr. Ohana in September 2005. The Compensation Committee is responsible for determining compensation for the executive officers of the Company, including bonuses and benefits, and administration of the Company's compensation programs, including the Company's Stock Option Plan.

#### LIMITATION ON LIABILITY AND INDEMNIFICATION MATTERS

The Company's Certificate of Incorporation limits the liability of directors to the maximum extent permitted by Delaware law. Delaware law provides that directors of a corporation will not be personally liable for monetary damages for breach of their fiduciary duties as directors, except for liability (i) for any breach of their duty of loyalty to the corporation or its stockholders, (ii) for acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law, (iii) for unlawful payments of dividends or unlawful stock repurchases or redemptions as provided in Section 174 of the Delaware General Corporation Law or (iv) for any transaction from which the director derived an improper personal benefit. The Company's Bylaws provide that the Company shall indemnify its directors, officers, employees and agents to the fullest extent permitted by law. The Company's Bylaws also permit the Company to secure insurance on behalf of any officer, director, employee or other agent for any liability arising out of his or her actions in such capacity. The Company currently maintains liability insurance for its officers and directors. At present, there is no pending material litigation or proceeding involving any director, officer, employee or agent of the Company where indemnification will be required or permitted. The Company is not aware of any threatened litigation or proceeding that might result in a material claim for such indemnification.

#### TECHNICAL ADVISORY BOARD

In November 2004 the Company established a Technical Advisory Board to assist the Company with its strategic business plan of maximizing the value of its Patent Portfolio. Each member of the Technical Advisory Board received a five (5) year option to purchase 17,500 shares (fully vested) of the Company's common stock at an exercise price of \$.54 per share.

The members of the Technical Advisory Board include:

GEORGE CONANT, CHAIRMAN OF MERLOT COMMUNICATIONS, INC., a broadband communications solutions provider. Prior to joining Merlot Communications, Inc., Mr.

22

Conant co-founded Xyplex, Inc., a manufacturer of data communications equipment and network management software, where he held the positions of Vice President of Engineering, Vice President of Technology and Chief Technology Officer. Prior to Xyplex, Mr. Conant was employed by Digital Equipment Corporation, where he

worked as a network architect. Mr. Conant received a BS and a Masters in theoretical mathematics from the University of Michigan.

RON KEENAN, CHIEF TECHNOLOGY OFFICER OF MERLOT COMMUNICATIONS, INC. Mr. Keenan is an expert on the convergence of telecommunications and data who, prior to co-founding Merlot, founded QFR USA Corporation, a high-tech firm engaged in developing custom ASICs for advanced and cost-effective communications systems. He had previously founded two other development firms. He also served as advanced engineering project director at TIE/Communications, Inc., where he developed the TIE 612 Electronic Key System, the first "skinny wire" telephone system and one of the largest selling key systems in history. Mr. Keenan received his BS in Electrical Engineering from the Milwaukee School of Engineering and has more than 20 years experience in advanced analog and digital design techniques.

ANDREW MASLOW, DIRECTOR OF INDUSTRIAL AFFAIRS, MEMORIAL SLOAN-KETTERING CANCER CENTER. Mr. Maslow heads the intellectual property activities of Sloan-Kettering which includes licensing activities of the Center's technology and management of its patent portfolio. Annual licensing revenue exceeds \$60 million. Prior to joining Sloan-Kettering, Mr. Maslow was Associate Director of the Office of Science and Technology of Columbia University where he was responsible for the development, patenting and licensing of inventions originating at the university. Mr. Maslow is a Registered Patent Attorney.

JONATHAN GREENE also serves as a member of the Technical Advisory Board (see page 21 hereof for a description of Mr. Greene's background).

#### SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires the Company's executive officers, directors, and persons who own more than 10% of the Company's outstanding Common Stock to file initial reports of ownership and changes in ownership with the Securities and Exchange Commission. Officers, directors and greater than 10% stockholders are required by Commission regulations to furnish the Company with copies of all Section 16(a) forms they file. The Company believes that its executive officers, directors, and greater than 10% stockholders complied with all required filings during the year ended December 31, 2005.

23

#### CODE OF ETHICS

The Board of Directors has adopted a Code of Ethics that applies to the principal executive officers, principal financial officer, principal accounting officer or controller, or persons performing similar functions. The Code of Ethics was filed as Exhibit 14 of the Company's Annual Report on Form 10-KSB for the year ended December 31, 2003.

#### ITEM 10. EXECUTIVE COMPENSATION

The following table summarizes compensation, for the fiscal years indicated, awarded to, earned by or paid to the Company's Chief Executive Officer ("CEO") and to each of its executive officers (collectively, the "Named Executive Officers") who received annual salary and bonus in excess of \$100,000 for the year ended December 31, 2005 for services rendered in all capacities to the Company.

##### SUMMARY COMPENSATION TABLE

<TABLE><CAPTION>

NAME AND PRINCIPAL POSITION	YEAR ENDED	ANNUAL COMPENSATION		LONG TERM COMPENSATION AWARDS			COMPENSATION(1)
		DECEMBER 31	SHARES OTHER ANNUAL SALARY (\$)	UNDERLYING BONUS (\$)	ALL OTHER ANNUAL COMPENSATION(1)	OPTIONS(#)

Chairman and Chief Executive Officer	2004	\$218,970	--	--	1,500,000	--	
	2003	\$210,000(3)	--	--	1,600,000	--	

(1) The Company has concluded that the aggregate amount of perquisites and other personal benefits paid to Mr. Horowitz did not exceed the lesser of ten percent (10%) of such individual's annual salary and bonus for each fiscal year indicated or \$50,000.

(2) The bonus paid to Mr. Horowitz was for 2005 and was paid in February

2006.

- (3) On December 22, 2003, Mr. Horowitz became Chairman and Chief Executive Officer of the Company. CMH Capital Management Corp. ("CMH"), the sole stockholder and officer of which is Mr. Horowitz, rendered financial consulting services from June 2001 until December 2003 and was paid consulting fees of \$205,398 for 2003 which is included in Mr. Horowitz's salary. Mr. Horowitz's salary for 2003 includes (i) his salary for December 2003 as Chairman and Chief Executive Officer and (ii) consulting fees received by CMH for the period January 2003 until December 2003.

#### EMPLOYMENT CONTRACTS, TERMINATION OF EMPLOYMENT AND CHANGE-IN-CONTROL ARRANGEMENTS

On November 26, 2004, the Company entered into an Employment Agreement with Corey M. Horowitz pursuant to which Mr. Horowitz continued to serve as Chairman and Chief Executive Officer of the Company for a two year term at an annual base salary of \$250,000 for the first year and \$275,000 for the second year. Mr. Horowitz was also issued options to purchase an aggregate of 1,500,000 shares of the Company's common stock consisting of (i) a ten (10) year option to purchase 1,100,000 shares at an exercise price of \$.25 per share which fully vested on the date of grant and (ii) a five year option to purchase 400,000 at an exercise price of \$.68 per share which vested 50% on the date of grant and 50% one year thereafter, subject to acceleration

24

upon a change of control. In addition, under the terms of his Employment Agreement, Mr. Horowitz shall receive bonus compensation in an amount equal to 5% of Network-1's royalties or other payments received from licensing its patents. Mr. Horowitz shall also receive bonus compensation equal to 5% of the gross proceeds from (i) the sale of any of the Company's patents or (ii) the merger of the Company with or into another corporation or entity. The aforementioned bonus compensation shall continue to be paid to Mr. Horowitz for a period of five (5) years following the term of the Employment Agreement with respect to licenses entered into by the Company with third parties during the term of the Employment Agreement, provided, that, Mr. Horowitz's employment has not been terminated by the Company "For Cause" (as defined) or terminated by Mr. Horowitz without "Good Reason" (as defined). In the event that Mr. Horowitz's employment is terminated by the Company "Other Than For Cause" (as defined) or by Mr. Horowitz for "Good Reason" (as defined), Mr. Horowitz shall be entitled to a severance of 12 months base salary.

In connection with his Employment Agreement, Mr. Horowitz has agreed not to compete with the Company as follows: (i) during the term of the agreement and for a period of 12 months thereafter if his employment is terminated other than for cause (as defined) provided he is paid his 12 month base salary severance amount and (ii) for a period of two years from the termination date, if terminated "For Cause" or "Without Good Reason." In accordance with his employment agreement (as amended on March 29, 2006), Mr. Horowitz also has certain anti-dilution rights which provide that if at any time during the period ended November 24, 2006, in the event that the Company completes an offering of its common stock or any securities convertible or exercisable into common stock (exclusive of securities issued upon exercise of outstanding options, warrants or other convertible securities), Mr. Horowitz shall receive from the Company, at the same price as the securities issued in the financing, such number of additional options to purchase Common Stock so that he maintains the same derivative ownership percentage (20.11%) of the Company based upon options and warrants owned by Mr. Horowitz and exclusive of his ownership of shares of Common Stock as he owned as of the time of execution of his employment agreement (November 2004); provided, that, the aforementioned anti-dilution protection shall be afforded to Mr. Horowitz up to a maximum future Company financing of \$2.5 million. In March 2005, Mr. Horowitz was issued a seven (7) year option to purchase 1,195,361 shares of Common Stock, at an exercise price of \$1.18 per share, pursuant to the anti-dilution provisions of his Employment Agreement as a result of a private offering of the Company's securities completed in December 2004 and January 2005.

On August 4, 2005, the Company and David C. Kahn entered into an agreement pursuant to which Mr. Kahn agreed to continue to serve as Chief Financial Officer of the Company through December 31, 2006. In consideration for his services, Mr. Kahn will be compensated at the rate of \$6,000 per month for the period through December 31, 2005 and \$6,300 per month for the year ended December 31, 2006. Mr. Kahn was also issued a ten (10) year option (the "Option") to purchase 75,000 shares of the Company's common stock at an exercise price of \$.80 per share. The option vested 30,000 shares on the date of grant and the balance of the shares (45,000) will vest on a quarterly basis in equal amounts of 7,500 shares beginning September 30, 2005 through December 31, 2006. Upon a "Change in Control" (as defined) all of the unvested shares underlying

the Option shall become 100% vested and immediately exercisable. The agreement further provides that the Company may terminate the

25

agreement at any time for any reason. In the event Mr. Kahn's services are terminated without "Good Cause" (as defined), he will be entitled to accelerated vesting of all unvested shares underlying the Option and the lesser of six months base monthly compensation or the remaining balance of the monthly compensation payable through December 31, 2006.

#### DIRECTOR COMPENSATION

The Company has compensated each director, who is not an employee of the Company, by granting to each outside director (upon joining the Board) stock options to purchase 50,000 shares of Common Stock, at an exercise price equal to the closing price of the Common Stock on the date of grant, with the options vesting over a one year period in equal quarterly amounts. In addition, each non-employee director receives an option grant to purchase 7,500 shares of Common Stock for each year of service after the first year as a member of the Board of Directors. Such options vest over a one year period in equal quarterly amounts. In addition to the aforementioned option grants, directors may be granted additional options at the discretion of the Board of Directors and the Compensation Committee.

#### OPTION GRANTS IN 2005

The following stock options were granted to the Named Executive Officers during the year ended December 31, 2005:

<TABLE><CAPTION>					
	NUMBER OF SHARES UNDERLYING OPTIONS GRANTED	% OF TOTAL OPTIONS GRANTED TO EMPLOYEES IN 2005(1)	EXERCISE PRICE PER SHARE (2)	EXPIRATION DATE	
<S>	<C>	<C>	<C>		
Corey M. Horowitz	1,195,361(2)	94%	\$1.18	3/16/2012	

- (1) The number of options granted to employees during the year ended December 31, 2005 used to compute this percentage is based on aggregate stock options of 1,270,361 shares including an option to purchase 75,000 shares granted to the Company's Chief Financial Officer.
- (2) The exercise price (\$1.18 per share) of the options granted to Mr. Horowitz was based upon the per share price of shares and warrants issued in the Company's private offering in December 2004 and January 2005 in accordance with the anti-dilution provisions of his employment agreement. The exercise price per share of the options (\$1.18) exceeded the fair market value of the shares on the date of grant (March 17, 2005) which was \$1.13.

26

#### FISCAL YEAR-END OPTION VALUES

No options were exercised by the Named Executive Officers during the year ended December 31, 2005. The following table sets forth information relating to the fiscal year-end value of unexercised options held by the Named Executive Officers on an aggregated basis:

<TABLE><CAPTION>					
Name	Number of Securities Underlying Unexercised Options at 12/31/2005		Value of Unexercised In-the-Money Options at Fiscal Year-End (\$)(1)		
	Exercisable	Unexercisable	Exercisable	Unexercisable	
<S>	<C>	<C>	<C>	<C>	
Corey M. Horowitz	5,523,081(2)	210,625	\$2,599,600	\$180,000	

- (1) Options are "in-the-money" if the market price of the Common Stock on December 30, 2005 (\$1.13) exceeds the exercise price of such options. The value of such options is calculated by determining the difference between the aggregate market price of the Common Stock underlying the

options on December 30, 2005 (last trading day of the year) and the aggregate exercise price of such options.

- (2) Includes options and warrants to purchase 1,300,000 shares of Common Stock held by CMH Capital Management Corp., an entity in which Mr. Horowitz is the sole owner and officer.

## ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In November 2004, the Company entered into a two year employment agreement with Corey M. Horowitz pursuant to which he continues to serve as Chairman and Chief Executive Officer at an annual base salary of \$250,000 for the first year and \$275,000 for the second year. Pursuant to the Employment Agreement the Company issued options to Mr. Horowitz to purchase 1,500,000 shares of common stock. (See Item 10. "Executive Compensation - Employment Contracts, Termination of Employment and Change-In-Control Arrangements" at page 25 hereof. In February 2006, Mr. Horowitz received a bonus of \$100,000 from the Company for 2005. On March 29, 2006, the Company entered into an amendment to its Employment Agreement with Mr. Horowitz pursuant to which the anti-dilution protection offered Mr. Horowitz was extended until November 26, 2006. The amendment provides that if the Company completes an equity financing (including securities exercisable or convertible into equity) at anytime prior to November 26, 2006, Mr. Horowitz shall be issued options by the Company (at an exercise price equal to the same price as the securities issued in the financing) to purchase such number shares of common stock so that he maintains the same derivative ownership percentage (as defined in the Employment Agreement) that he owned as of November 2004 (at the time of execution of the employment agreement); provided; that, such anti-dilution protection shall be provided to Mr. Horowitz up to a maximum future Company financing of \$2.5 million.

On November 18, 2003, the Company entered into an agreement (the "Agreement") with Merlot Communications, Inc. ("Merlot"), a broadband communications solutions provider, pursuant to which the Company acquired six patents (the "Patent Portfolio") relating to various telecommunications and data networking technologies from Merlot, for a purchase price of \$100,000 and contingent future payments equal to 20% of the net income (as defined in the Agreement) of the Company from the sale or licensing of the Patents after the Company achieves \$4.0 million of net income for each patent comprising the Patent Portfolio ("Future Contingent Payments"). On January 18, 2005, the Company and Merlot entered into an amendment to the Agreement (the "Amendment") pursuant to which the Company paid \$500,000 to Merlot in consideration for the restructuring of the Future Contingent Payments to Merlot from the licensing or sale of the Patent Portfolio. The Amendment provides for future contingent payments by the Company to Merlot of \$1.0 million upon achievement of \$25 million of Net Royalties (as defined), an additional \$1.0 million upon achievement of \$50 million of Net Royalties and an additional \$500,000 upon achievement of \$62.5 million of Net

31

Royalties from licensing or sale of the patents acquired from Merlot. Wheatley Partners, II, L.P. and its affiliates and related parties, who are principal stockholders of the Company, owned a majority of the outstanding voting stock of Merlot at the time of the Agreement and the Amendment and Barry Rubenstein and Irwin Lieber, principal stockholders of the Company and general partners of Wheatley Parties II, L.P., were also directors of Merlot at the time of the Agreement and Amended Agreement but abstained from voting on approval of such agreements.

On April 13, 2004, the Company as part of a recapitalization entered into an exchange agreement with each of its outstanding holders of preferred stock pursuant to which such holders exchanged an aggregate of 2,714,562 shares of Preferred Stock (231,054 shares of Series D Preferred Stock and 2,483,508 shares of Series E Preferred Stock) for an aggregate of 6,698,118 shares of Common Stock. Holders of preferred stock received 1.25 shares of Common Stock for each

share of Common Stock such holders would have received based upon the conversion rate of their Preferred Stock. The holders of preferred stock participating in the exchange included among the 27 holders, CMH (1,084,935 shares of Series E Preferred Stock), Donna Slavitt, the wife of Corey M. Horowitz (35,377 shares of Series E Preferred Stock), Barry Rubenstein, his wife and affiliated entities exclusive of Wheatley entities (471,686 shares of Series E Preferred Stock and 139,747 shares of Series D Preferred Stock), Wheatley Partners II, L.P. (94,339 shares of Series E Preferred Stock), Wheatley Partners, L.P. (86,792 shares of Series E Preferred Stock) and Wheatley Foreign Partners, L.P. (7,547 shares of Series E Preferred Stock), Irwin Lieber (165,094 shares of Series E Preferred Stock and 34,689 shares of Series D Preferred Stock) and Barry Fingerhut (165,094 shares of Series D Preferred Stock and 34,689 shares of Series D Preferred Stock).

On December 21, 2004, the Company extended the exercise period for outstanding warrants to purchase 1,352,152 shares of Common Stock originally issued in connection with a private offering completed by the Company in December 1999 (the "1999 Warrants") for an additional period of one year or until December 22, 2005. On December 12, 2005, the exercise period of the 1999 Warrants was further extended until March 22, 2006. Corey M. Horowitz was among the investors that participated in the December 1999 private offering and owned warrants to purchase 85,220 shares as part of the 1999 Warrants.

On December 21, 2004 and January 13, 2005, the Company completed a private offering of an aggregate of 2,685,000 shares of common stock and three year warrants to purchase 2,013,750 shares of common stock for an aggregate purchase price of \$2,685,000 paid by investors (the "Private Offering"). As part of its agreement with the investors in the Private Offering, the Company filed a registration statement with the Securities and Exchange Commission to register for resale the Common Stock (including the shares issuable upon exercise of the warrants) sold in the Private Offering and such Registration Statement was declared effective on December 22, 2005. Investors in the Private Offering included Robert Graifman (100,000 shares of Common Stock and warrants to purchase 75,000 shares of Common Stock), a director of the Company. As a result of completion of the Private Offering, in accordance with the anti-dilution provisions of the Employment Agreement, dated November 26, 2004, between Corey M. Horowitz and the Company, in March 2005, Mr. Horowitz was issued a seven

year option to purchase 1,195,361 shares of Common Stock at an exercise price of \$1.18 per share.

#### ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

##### AUDIT FEES

Eisner LLP, the Company's former principal independent accountant, billed the Company aggregate fees of approximately \$73,000 and \$81,000 for the years ended December 31, 2005 and December 31, 2004, respectively, for review of financial statements included in the Company's Form 10-QSB's and for other services in connection with statutory or regulatory filings for the year ended December 31, 2005, for the audit of the Company's annual financial statements for the year ended December 31, 2004 and for review of financial statements included in the Company's Form 10-QSB's and for other services in connection with statutory and regulatory filings for the year ended December 31, 2004. On February 2, 2006, the Company dismissed Eisner LLP and engaged Radin, Glass Co., LLP as its new principal independent accountant to audit the Company's financial statements for the year ended December 31, 2005. Before Radin, Glass & Co., LLP and Eisner LLP were engaged to render audit services for the Company for the years ended December 31, 2005 and December 31, 2004, respectively, the engagements were pre-approved by the Company's Audit Committee.

##### AUDIT RELATED FEES, TAX FEES AND ALL OTHER FEES

Eisner LLP and Radin, Glass Co., LLP did not render any other professional service other than those discussed above for the years ended December 31, 2005 or December 31, 2004.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders  
Network-1 Security Solutions, Inc.

We have audited the accompanying balance sheet of Network-1 Security Solutions, Inc. as of December 31, 2005 and the related statements of operations, stockholders' equity and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements enumerated above present fairly, in all material respects, the financial position of Network-1 Security Solutions, Inc. as of December 31, 2005, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

NETWORK-1 SECURITY SOLUTIONS, INC.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2005 AND 2004

NOTE A - THE COMPANY

Network-1 Security Solutions, Inc. (the "Company") is engaged in the acquisition, licensing and protection of its intellectual property and proprietary technologies. The Company owns six patents covering various telecommunications and data networking technologies (the "Patent Portfolio"). The Company's strategy is to pursue licensing and strategic business alliances with companies that manufacture and sell products that make use of the technologies underlying the Patent Portfolio as well as with other users of the technologies who benefit directly from the technologies including corporate, educational and governmental entities. In February 2004, the Company initiated its licensing efforts relating to its remote power patent which pertains to the control of power delivery over Ethernet networks for the purpose of remotely powering network devices. As of December 31, 2005, the Company has not entered into any licensing arrangements with respect to its Patent Portfolio.

NOTE B -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] CASH EQUIVALENTS:

The Company considers all highly liquid short-term investments purchased with an original maturity of three months or less to be cash equivalents.

[2] REVENUE RECOGNITION:

The Company plans on recognizing revenue received from the licensing of its intellectual property portfolio in accordance with Staff Accounting Bulletin No. 104, "Revenue Recognition" ("SAB No. 104") and related authoritative pronouncements. Under this guidance, revenue is recognized when (i) persuasive evidence of an arrangement exists, (ii) all obligations have been performed pursuant to the terms of the license agreement, (iii) amounts are fixed or determinable and (iv) collectibility of amounts is reasonably assured.

[3] PATENTS:

The Company owns a Patent Portfolio that relates to various telecommunications and data networking technologies. The Company capitalizes the costs associated with acquisition, registration and maintenance of the patents and amortizes these assets over their remaining useful lives on a straight-line basis. Any further payments made to maintain or develop the patents would be capitalized and amortized over the balance of the useful life of the patents.

[4] IMPAIRMENT OF LONG-LIVED ASSETS:

In accordance with Statement of Financial Accounting Standards ("SFAS") No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," intangible assets with finite lives are tested for impairment whenever events or circumstances indicate that the carrying amount may not be recoverable. Accordingly, the Company records impairment losses on long-lived assets used in operations or expected to be disposed of when indicators of impairment exist and the undiscounted cash flows expected to be derived from those assets are less than carrying amounts of those assets. During the years ended December 31, 2005 and 2004, there was no impairment to its patents.

[5] INCOME TAXES:

The Company utilizes the liability method of accounting for income taxes. Under such method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the

financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect at the balance sheet date. The resulting asset or liability is adjusted to reflect enacted changes in tax law. Deferred tax assets are reduced, if necessary, by a valuation allowance when the likelihood of realization is not assured.

NETWORK-1 SECURITY SOLUTIONS, INC.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2005 AND 2004

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[6] NET LOSS PER SHARE:

Basic net loss per share is calculated by dividing the net loss by the weighted average number of outstanding common shares during the year. Diluted per share data includes the dilutive effects of options, warrants and convertible securities. Potential common shares of 11,267,319 and 10,111,299 at December 31, 2005 and 2004, respectively, are not included in the calculation of diluted loss per share because its effect will be anti-dilutive. Such potential common shares are options, warrants, convertible preferred stock and convertible notes.

[7] USE OF ESTIMATES:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

[8] FINANCIAL INSTRUMENTS:

The carrying amounts of cash and cash equivalents, accounts payable and accrued expenses approximate their fair value due to the short period to maturity of these instruments.

[9] STOCK-BASED COMPENSATION:

The Company accounts for stock-based employee compensation under Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations. The Company has adopted the disclosure-only provisions of SFAS No. 123, "Accounting for Stock-Based Compensation;" and SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure," which was released in December 2002 as an amendment of SFAS No. 123. The following table illustrates the effect on net loss and loss per share if the fair value-based method had been applied to all awards:

	YEAR ENDED DECEMBER 31,	
	2005	2004
Reported net loss attributable to common Stockholders	\$ (1,832,000)	\$ (3,405,000)
Stock-based employee compensation expense included in reported net loss	6,000	422,000
Stock-based employee compensation determined under the fair value-based method	(613,000)	(1,744,000)
Pro forma net loss	<u>\$ (2,439,000)</u>	<u>\$ (4,727,000)</u>
Net loss per common share (basic and diluted):		
As reported	<u>\$ (0.10)</u>	<u>\$ (0.26)</u>
Pro forma	<u>\$ (0.14)</u>	<u>\$ (0.36)</u>

## NETWORK-1 SECURITY SOLUTIONS, INC.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2005 AND 2004

## NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The fair value of options on the date of grant is estimated using the Black-Scholes option-pricing model utilizing the following weighted average assumptions:

	YEAR ENDED DECEMBER 31,	
	2005	2004
Risk-free interest rates	3.87 - 4.15%	2.67 - 3.62%
Expected option life in years	5.00	3.00
Expected stock price volatility	195.50 - 237.35%	111.88 - 231.34%
Expected dividend yield	0.00%	0.00%

The weighted average fair value on the option grant date during the years ended December 31, 2005 and 2004 were \$ 0.96 and \$0.37 per option, respectively.

## [10] RECENTLY ISSUED ACCOUNTING STANDARDS:

In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 123R, "Share-Based Payment" ("SFAS 123R"), which replaces SFAS No. 123, "Accounting for Stock-Based Compensation," and supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees." This statement requires all share-based payments to employees be recognized in the financial statements based on their fair values on the date of grant. The Company currently uses the intrinsic value method to measure compensation expense for stock-based awards which requires a pro forma net income and earnings per share presentation as if the Company had used a fair-value based method provided by SFAS 123 to measure stock-based compensation. The Company is required to adopt SFAS 123R in the first quarter of 2006. The Company is evaluating the requirements of SFAS 123R and expects that any future issuance of options could upon its adoption have a material impact on the Company's results of operations and earnings (loss) per share.

In November of 2004, the FASB issued SFAS No. 151, "Inventory Costs," which amends the guidance in ARB No. 43, Chapter 4, "Inventory Pricing," to clarify the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage). This statement requires that those items be recognized as current-period charges regardless of whether they meet the criterion of "so abnormal" as stated in ARB No. 43. Additionally, SFAS 151 requires allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. The Company is required to adopt the provision of SFAS No. 151 in the third quarter of 2006. The Company does not expect SFAS 151 to have a material impact on its results of operations or financial condition.

In December of 2004, the FASB issued SFAS No. 153, "Exchanges of Nonmonetary Assets - An Amendment of APB Opinion No. 29 ("SFAS 153"). SFAS 153 eliminates the exception for nonmonetary exchanges of similar productive assets and replaces it with a general exception for exchanges of nonmonetary assets that do not have commercial substance. SFAS 153 is effective for the fiscal periods beginning after June 15, 2005 and is required to be adopted by the Company in the first quarter of 2006. The Company does not expect that the adoption of SFAS 153 will have a material impact on the Company's results of operations or financial condition.

In May 2005, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards ("SFAS") No. 154, "Accounting Changes and Error Corrections, a replacement of APB Opinion No. 20 and FASB Statement No. 3." SFAS No. 154 requires retroactive application to prior periods' financial statements of voluntary changes in accounting principle unless it is impracticable. The Company is required to adopt SFAS 154 in the first quarter of 2006. The Company does not expect SFAS 154 to have a material impact on its results of operations or financial condition.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FASB Staff Position No. FAS 115-1 and FAS 124-1, "The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments" (the "FSP"), was issued on November 3, 2005 and addresses the determination of when an investment is considered impaired; whether the impairment is other than temporary; and how to measure an impairment loss. The FSP also addresses accounting considerations subsequent to the recognition of an other-than-temporary impairment on a debt security, and requires certain disclosures about unrealized losses that have not been recognized as other-than-temporary impairments. The Company is required to adopt SFAS 154 in the first quarter of 2006. The Company does not expect SFAS 154 to have a material impact on its results of operations or financial condition.

NOTE C- PATENTS

In November 2003, the Company acquired a portfolio of telecommunications and data networking patents (six patents) from Merlot Communications, Inc. (the "Seller") in which certain principal stockholders of the Company owned a majority of the Seller's voting stock at the time of the transaction. The purchase price for the Patent Portfolio was \$100,000, paid in cash. The cash price paid has been capitalized and is being amortized over the remaining useful life of each patent. In addition, the Company has granted the Seller a nonexclusive, royalty free, perpetual license for the term of each patent to use the patents for the development, manufacture or sale of its own branded products to end users. The Company had agreed to pay the Seller 20% of the net income, as defined, after the first \$4,000,000 of net income realized by the Company on a per patent basis from the sale or licensing of the patents. On January 18, 2005, the Company and Seller amended the Patent Purchase Agreement (the "Amendment") pursuant to which the Company paid additional purchase price of \$500,000 to Seller in consideration for the restructuring of future contingent payments to Seller from the licensing or sale of the Patents. Such \$500,000 has been recorded as an expense in the accompanying statement of operations. The Amendment provides for future contingent payments by the Company to Seller of \$1.0 million upon achievement of \$25 million of Net Royalties (as defined), an additional \$1.0 million upon achievement of \$50 million of Net Royalties and an additional \$500,000 upon achievement of \$62.5 million of Net Royalties from licensing or sale of the patents acquired from Merlot (see Note H[5]).

For the years ended December 31, 2005 and 2004, the Company has not derived any income from sale or licensing of these patents.

NOTE D - STOCKHOLDERS' EQUITY

[1] PREFERRED STOCK:

In April 2004, the Company entered into an exchange agreement with the holders of all of the Company's outstanding shares of Series E ("Series E") and Series D ("Series D") convertible preferred stock to exchange 2,483,508 shares of Series E for 6,208,770 shares of common stock and 231,054 shares of Series D for 489,348 shares of common stock. As an inducement for agreeing to such conversion, the holders of the Series E and Series D received 1.25 times the number of shares of common stock that each preferred stockholder would have otherwise received upon conversion. The holders of preferred stock participating in the exchange included, among others, CMH Capital Management Corp. ("CMH") (1,084,935 of Series E shares), the wife of Corey M. Horowitz, CEO of the Company (35,377 of Series E shares) and other principal stockholders of the Company

(990,552 of Series E shares and 209,125 of Series D shares). Upon closing of the exchange agreement, there were no outstanding shares of preferred stock. Corey M. Horowitz, Chairman and Chief Executive Officer and a principal stockholder of the Company, is the sole owner and officer of CMH.

[2] PRIVATE PLACEMENT:

(a) On December 21, 2004, the Company completed the first closing of a private placement of 2,085,000 shares of common stock and three-year warrants to purchase 1,563,750 shares of common stock (warrants to purchase 1,042,500 shares of common stock at an exercise price of \$1.25 and warrants to purchase 521,250 shares of common stock at an exercise price of \$1.75) for an aggregate purchase price of \$2,035,000, net of \$50,000 issuance costs. On January 13, 2005, the Company completed a second closing with respect to the private placement of securities, which consisted of an additional 600,000 shares of common stock and warrants to purchase an additional 450,000 shares of common stock (warrants to purchase 300,000 shares of common stock at an exercise price of \$1.25 and warrants to purchase 150,000 shares of common stock at an exercise price of \$1.75) for an aggregate purchase price of \$600,000. In connection with the first closing of the private placement in December 2004, the Company issued to a finder, warrants to purchase 50,000 shares of common stock at an exercise price of \$1.00 expiring in December 2009. As part of the private placement, the Company filed a registration statement to register the common stock and the shares issuable upon exercise of the warrants.

(b) In connection with the private placement and anti-dilution provisions for the warrants previously issued to FalconStor Software, Inc., the Company issued warrants to purchase an aggregate of 135,000 shares of common stock (6,287 shares in January 2005 and 128,713 shares in December 2004) at an exercise price of \$1.00 expiring in October 2006. The associated expenses, which are treated as imputed dividend, are based on the fair value of these warrants using the Black-Scholes model utilizing the risk-free interest rate of 2.67% and 3.01% life of 2 years, volatility of 270% and dividend yield of 0% in 2005 and 2004, respectively. Such expenses amounted to \$6,000 and \$147,000 and are presented as deemed dividend in the accompanying statement of operations for the years ended December 31, 2005 and 2004, respectively.

[3] STOCK OPTIONS:

During 1996, the Board of Directors and stockholders approved the adoption of the 1996 Stock Option Plan (the "1996 Plan"). The 1996 Plan, as amended, provides for the granting of both incentive and non-qualified options to purchase common stock of the Company. A total of 4,000,000 shares are provided for under the 1996 Plan.

The term of options granted under the 1996 Plan may not exceed ten years (five years in the case of an incentive stock option granted to an employee/director owning more than 10% of the voting stock of the Company) ("10% stockholder"). The option price for incentive stock options cannot be less than 100% of the fair market value of the shares of common stock at the time the option is granted (110% for a 10% stockholder). Option terms and vesting periods are set by the Compensation Committee in its discretion.

- (a) Includes options issued to Corey M. Horowitz, Chairman and Chief Executive Officer, with respect to his two-year employment agreement entered into with the Company in November 2004, to purchase an aggregate of 1,500,000 shares of common stock consisting of (i) ten-year non-qualified options to purchase 1,100,000 shares at an exercise price of \$0.25 per share fully vested on the date of grant and (ii) five-year incentive stock options to purchase 400,000 shares at an exercise price of \$0.68 per share which vested 50% on the date of grant and 50% one year thereafter, subject to acceleration upon a change of control (see Note I[2]). The Company recognized \$407,000 of expense in 2004 related to the 1,100,000 options representing the difference between the exercise price of the option and the market price on the date of grant. The Company did not recognize compensation expense for 400,000 options as the exercise price exceeded the market price on the date of grant.
- (b) Includes 745,628 stock options issued to Mr. Horowitz (see Note I[2]) in accordance with an anti-dilution provision of his employment agreement. The Company recognized \$15,000 of expense in 2004 related to these options representing the difference between the exercise price and the market price.
- (c) Includes 449,733 stock options issued to Mr. Horowitz (see Note I[2]) in accordance with an anti-dilution provision of his agreement. No expense has been recorded as the exercise price exceeds market price on date of grant.
- (d) Includes an aggregate of 250,000 stock options issued to (i) the Chief Financial Officer to purchase 75,000 shares of common stock at an exercise price of \$.80 per share (see Note I[1]), (ii) two consultants to purchase an aggregate of 125,000 shares of common stock at an exercise price of \$.80 per share, and (iii) a director to purchase 50,000 shares of common stock at an exercise price of \$.80 per share.

On April 18, 2002, in consideration of additional consulting and financial

advisory services, the Company issued to CMH an option to purchase 750,000 shares of the common stock at an exercise price of \$1.20 per share, which was the market price of the Company's common stock on the date of issuance. The options vested over a three-year period in equal amounts of 250,000 per year beginning April 18, 2003. These options are treated as contingent options and were originally priced in the quarter ended June 30, 2002 at \$416,000. Subsequently, they are revalued at each balance sheet date. On April 18, 2003, 250,000 of these options vested, having a fair value of \$5,000. Accordingly, \$5,000 was reallocated to additional paid-in capital with a corresponding reduction to the liability. On April 18, 2004, 250,000 of these options vested having a fair value of \$51,000. Accordingly, \$51,000 was reallocated to additional paid-in-capital with a corresponding reduction to the liability. On April 18, 2005, the remaining 250,000 options were vested and revalued from \$294,000 at December 31, 2004 to \$262,000 which was reallocated to additional paid in capital. Any increase or decrease in the valuation has been reflected as an addition or reduction of general and administrative expenses at each balance sheet date.

- (a) Issued to CMH in 2001, a company owned by the Chairman and Chief Executive Officer.
- (b) Issued in connection with Series D preferred stock and notes in December 1999. As a result of private placement in December 2004, the warrant holders were entitled to additional warrants under anti-dilution provisions. However, in lieu of such additional warrants, the Company and the warrant holders agreed to extend the term of the 1,352,152 warrants for an additional year until December 22, 2005. In December 2005, these warrants were further extended for three months until March 22, 2006. The associated expenses in connection with these extensions of warrants are shown as deemed dividend in the accompanying statement of operations for the years ended December 31, 2005 and 2004.
- (c) Issued in 2001 private offering of Series E preferred stock and additional warrants to purchase an aggregate of 135,000 shares issued with respect to the anti-dilution provisions of the warrants as a result of private offerings completed in December 2005 and January 2006 (see Note D[2](b)).
- (d) Issued to a software development company for services rendered (see Note E [5]).

(e) Issued in connection with 2004 private offering of common stock (see Note D[2](a)).

(f) Issued in connection with the 2005 private offering of common stock (see Note D[2](a)).

#### NOTE E - COMMITMENTS AND CONTINGENCIES

##### [1] SERVICES AGREEMENT:

On November 30, 2004, the Company entered into a master services agreement (the "Agreement") with ThinkFire Services USA, Ltd. ("ThinkFire") pursuant to which ThinkFire has been granted the exclusive

worldwide rights (except for direct efforts by the Company and related companies) to negotiate license agreements for the Remote Power Patent with respect to certain potential licensees agreed to between the parties.

Either the Company or ThinkFire can terminate the Agreement upon 60 days' notice for any reason or upon 30 days' notice in the event of a material breach. The Company has agreed to pay ThinkFire a fee not to exceed 20% of the royalty payments received from license agreements consummated by ThinkFire on its behalf.

##### [2] CONTINGENT LEGAL FEES:

In August 2005, the Company entered into an agreement with Blank Rome, LLP ("Blank Rome"), a national law firm, pursuant to which Blank Rome has been engaged to represent the Company in connection with all litigation involving the Company's remote power patent. Blank Rome has agreed to represent the Company with respect to each litigation pertaining to the remote power patent on a full contingency basis (except for any proceeding before the International Trade Commission). As compensation for its services on a full contingency basis, Blank Rome will receive from the Company percentages of Net Consideration (as defined in the agreement) ranging from 12.5% to 35% received by the Company by way of settlement or judgment in connection with each litigation matter. The Company has also agreed to compensate Blank Rome in an amount equal to 10% of the Net Consideration received by the Company from certain designated parties mutually agreed upon by the Company and Blank Rome in the event such designated parties enter into license agreements or similar agreements with the Company.

##### [3] OPERATING LEASES:

The Company leases its principal office space in New York City at a monthly rent of \$3,150 for 2005.

Rental expense for the years ended December 31, 2005 and 2004 aggregated \$43,000 and \$36,000, respectively.

##### [4] SAVINGS AND INVESTMENT PLAN:

The Company has a Savings and Investment Plan which allows participants to make contributions by salary reduction pursuant to Section 401(k) of the Internal Revenue Code of 1986. The Company also may make discretionary annual matching contributions in amounts determined by the Board of Directors, subject to statutory limits. The Company did not make any contributions to the 401(k) Plan during the years ended December 31, 2005 and 2004.

##### [5] SOFTWARE DEVELOPMENT CONTRACT DISPUTE:

The Company has a dispute with a software development company pertaining to the number of warrants the Company is required to issue for services rendered. The software development company has claimed they are entitled to approximately 325,000 additional warrants than the Company has included in the warrants outstanding in Note D[4]. At December 31, 2004, the Company has included in accrued expenses \$385,000 and this amount was subsequently reversed in 2005.

#### NOTE F - INCOME TAXES

At December 31, 2005, the Company has available net operating loss carryforwards

to reduce future federal taxable income of approximately \$38,975,000 for tax reporting purposes, which expire from 2009 through 2025.

F-15

NETWORK-1 SECURITY SOLUTIONS, INC.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2005 AND 2004

NOTE F - INCOME TAXES (CONTINUED)

Pursuant to the provisions of the Internal Revenue Code, future utilization of these past losses is subject to certain limitations based on changes in the ownership of the Company's stock that have occurred.

The principal components of the net deferred tax assets are as follows:

	YEAR ENDED DECEMBER 31,	
	2005	2004
Deferred tax assets:		
Net operating loss carryforwards	\$ 14,615,000	\$ 12,174,000
Options and warrants not yet deducted, for tax purposes	1,080,000	947,000
Other	0	126,000
	15,695,000	13,247,000
Valuation allowance	(15,695,000)	(13,247,000)
Net deferred tax assets	\$ 0	\$ 0

The Company has recorded a valuation allowance for the full amount of its deferred tax assets as the likelihood of the future realization cannot be presently determined and any disallowable for changes of ownerships. The valuation allowance increased by \$2,448,000 in 2005 and \$738,000 in 2004.

The reconciliation between the taxes as shown and the amount that would be computed by applying the statutory federal income tax rate to the loss before income taxes is as follows:

	YEAR ENDED DECEMBER 31,	
	2005	2004
Income tax benefit - statutory rate	(34.0)%	(34.0)%
State and local, net	(3.5)%	(3.5)%
Valuation allowance on deferred tax assets	37.5 %	37.5 %

NOTE G - CONCENTRATIONS

The Company places its cash investments in high quality financial institutions insured by the Federal Deposit Insurance Corporation ("FDIC"). At December 31, 2005, the Company maintained cash balances of \$824,000 in excess of FDIC limits.

NOTE I - RELATED PARTY TRANSACTIONS

[1] In April 2004, the Company entered into an exchange agreement with the holders of all of the Company's outstanding shares of Series E and Series D convertible preferred stock to convert 2,483,508 shares of Series E into 6,208,770 shares of common stock and 231,054 shares of Series D into 489,348 shares of common stock. As an inducement for agreeing to such conversion, the holders of the Series E and Series D received 1.25 times the number of shares of common stock that each preferred stockholder would have otherwise received upon conversion. The holders of preferred stock participating in the

exchange included, among others, CMH (1,084,935 of Series E shares), the wife of Corey M. Horowitz (35,377 of Series E shares) and other principal stockholders of the Company (990,552 of Series E shares and 209,125 of Series D shares). Upon closing of the agreement, there were no outstanding shares of preferred stock. As a result of this transaction the Company has imputed a dividend in the amount of \$ 273,000 for the year ended December 31, 2004.

[2] In November 2004, the Company entered into a two-year employment agreement with Corey M. Horowitz to continue to serve as Chairman and Chief Executive Officer at a base salary of \$250,000 for the first year and \$275,000 for the second year (see Note I[2]).

[3] On December 21, 2004, the Company extended the exercise period for the 1999 Warrants by an additional year until December 22, 2005. In December 2005, these warrants were further extended for three months until March 22, 2006. The 1999 Warrants were originally issued as part of a private offering completed by the Company in December 1999. In connection with these extensions, the change in fair value of \$494,000 and \$1,032,000 using the Black-Scholes model utilizing the risk-free interest rate of 3.97% and 2.67%, life of 0.25 year and 1 year, volatility of 174% and dividend yield of 0% was recorded as a deemed dividend in 2005 and 2004, respectively. Corey M. Horowitz, Chairman and Chief Executive Officer of the Company, owns 85,220 warrants of the 1999 Warrants. (See Note D[4](b)).

[4] On December 21, 2004, the Company completed a private placement of 2,085,000 shares of common stock and three year warrants to purchase 1,563,750 shares of common stock for an aggregate purchase price of \$2,035,000, net of \$50,000 in issuance costs. An investor in the above private placement (100,000 shares of common stock and warrants to purchase 75,000 shares of common stock) is a director of the Company.

[5] On November 18, 2003, the Company entered into an agreement (the "Agreement") with Merlot Communications, Inc. ("Merlot"), a broadband communications solutions provider, pursuant to which the Company acquired six patents (the "Patent Portfolio") relating to various telecommunications and data networking technologies from Merlot, for a purchase price of \$100,000 and contingent future payments equal to 20% of the net income (as defined in the Agreement) of the Company from the sale or licensing of the Patents after the Company achieves \$4.0 million of net income for each patent comprising the Patent Portfolio ("Future Contingent Payments"). On January 18, 2005, the Company and Merlot entered into an amendment to the Agreement (the "Amendment") pursuant to which the Company paid \$500,000 to Merlot in consideration for the restructuring of the Future Contingent Payments to Merlot from the licensing or sale of the Patent Portfolio. The Amendment provides for future contingent payments by the Company to Merlot of \$1.0 million upon achievement of \$25 million of Net Royalties (as defined), an additional \$1.0 million upon achievement of \$50 million of Net Royalties and an additional \$500,000 upon achievement of \$62.5 million of Net Royalties from licensing or sale of the patents acquired from Merlot. Certain principal stockholders of the Company, and their affiliates and related parties, owned a majority of the outstanding voting stock of Merlot at the time of the Agreement and the Amendment and were also directors of Merlot at the time of the Agreement and the Amendment.

#### NOTE I - EMPLOYMENT ARRANGEMENTS AND OTHER AGREEMENTS

[1] In January 2004, the Company entered into an agreement with an individual to serve as the Company's Chief Financial Officer ("CFO"). The agreement expired on December 31, 2004 and provided for a base salary of \$5,500 per month for the period January 22, 2004 through April 30, 2004, \$4,500 per month for the

period May 1, 2004 through August 31, 2004 and \$3,500 per month from September 1, 2004 through December 31, 2004. In connection with his agreement, the CFO received options to purchase 50,000 shares of common stock of the Company at \$0.35 per share under the Company's stock option plan, at the fair market value of the shares on the date of the grant, 20,000 of these options vested immediately and the balance vested on a monthly basis through December 31, 2004. In August 2005, the Company

renewed its arrangement with its CFO through December 31, 2006 and issued options to the CFO to purchase 75,000 shares of common stock, at an exercise price of \$.80 per share, which vested 30,000 shares on the date of grant and the balance of 45,000 shares shall vest in equal amounts of 7,500 shares on a quarterly basis beginning September 30, 2005 through December 31, 2006.

[2] On November 26, 2004, the Company entered into an employment agreement with Corey M. Horowitz pursuant to which he agreed to continue to serve as Chairman and Chief Executive Officer of the Company for a two-year term at an annual base salary of \$250,000 for the first year and \$275,000 for the second year. Mr. Horowitz was also issued options to purchase an aggregate of 1,500,000 shares of the Company's common stock consisting of (i) a ten (10) year fully vested option to purchase 1,100,000 shares at an exercise price of \$0.25 per share, and (ii) a five-year option to purchase 400,000 shares at an exercise price of \$0.68 per share which vested 50% on the date of grant and 50% one year thereafter, subject to acceleration upon a change of control (see Note D[3](a)). In addition, Mr. Horowitz will receive a bonus of 5% of the Company's royalties or other payments received from licensing its patents. This bonus will continue to be paid to Mr. Horowitz for a period of five (5) years following the term of the employment agreement with respect to licenses entered into by the Company during the term of the employment agreement, provided that he has not been terminated by the Company "for cause" or by Mr. Horowitz himself without "good reason". For the year ended December 31, 2005, Mr. Horowitz was paid a discretionary bonus of \$100,000 in February 2006. Mr. Horowitz shall receive severance equal to 12 months base salary in the event his employment is terminated "without cause" or by Mr. Horowitz for "good reason". Mr. Horowitz was also granted certain anti-dilution rights which provide that if at any time during the period ending December 31, 2005, in the event that the Company completes an offering of its common stock or any securities convertible or exercisable into common stock, he will receive, at the same price as the securities issued in the financing, such number of additional stock options so that he maintains the same ownership percentage of (20.11%) of the Company based upon options and warrants owned by him and CMH (exclusive of his ownership of shares of common stock) as he owned as of November 26, 2004. As a result of the closings of the private placement on December 31, 2004 and January 13, 2005 and in accordance with the anti-dilution protection afforded to Mr. Horowitz in his employment agreement, Mr. Horowitz earned seven year options to purchase an aggregate of 1,195,361 shares at an exercise price of \$1.18 per share (see Notes D[3](b) and D[3](c)).

[3] In September 2005, Laurent Ohana was elected to the Board of Directors and was granted an option to purchase 50,000 shares of the Company's common stock, at an exercise price of \$.80 per share, which vest at the rate of 12,500 shares per quarter beginning December 16, 2005.

#### NOTE J - LITIGATION

[1] On November 17, 2005 the Company entered into a Settlement Agreement with PowerDsine, Inc and PowerDsine Ltd. which dismisses, with prejudice, a civil action brought by PowerDsine in the United States District Court for the Southern District of New York that sought a declaratory judgment that U.S. Patent No. 6,218,930 (the "Remote Power Patent") owned by the Company was invalid and not infringed by PowerDsine and/or its customers. Under the terms of the Settlement Agreement, the Company has agreed that it will not initiate litigation against PowerDsine for its sale of Power over Ethernet (PoE) integrated circuits. In addition, the Company has agreed that it will not seek damages for infringement from customers that incorporate PowerDsine integrated circuit products in PoE capable Ethernet switches manufactured on or before April 30, 2006. PowerDsine has agreed that it will not initiate, assist or cooperate in any legal action relating to the Remote Power Patent. The Company also agreed that it will not initiate litigation against PowerDsine or its customers for infringement of the Remote Power Patent arising from the

F-18

manufacture and sale of PowerDsine Midspan products for three years following the dismissal date. Following such three year period, the Company may seek damages for infringement of the Remote Power Patent from PowerDsine or its customers with respect to the purchase and sale of Midspan products beginning 90 days following the dismissal date.

[2] On August 10, 2005, the Company commenced litigation against D-Link Corporation and D-Link Systems, Incorporated (collectively, "D-Link") in the United States District Court for the Eastern District of Texas, Tyler

division (Civil Action No. 6:05W291), for infringement of our Remote Power Patent. The Company's complaint seeks, among other things, a judgment that its Remote Power Patent is duly enforceable and has been infringed by the defendants. The Company also seeks a permanent injunction restraining defendants from continued infringement, or active inducement of infringement by others, of the Remote Power Patent. On February 27, 2006, the D-Link defendants filed answers and asserted counterclaims. In their answers, the D-Link defendants asserted that they did not infringe any valid claim of the Remote Power Patent, and further asserted that the asserted patent claims are invalid and/or unenforceable. In addition to these defenses, the D-Link defendants also asserted counterclaims for, among other things, non-infringement, invalidity and unenforceability of the Remote Power Patent. In the event that the Court determines that the Company's Remote Power Patent was not valid or enforceable, and/or that the defendants did not infringe, any such determination would have a material adverse effect on the Company.

#### NOTE K - SUBSEQUENT EVENTS

[1] During January 2006 through March 22, 2006, warrants to purchase 1,352,152 shares of common stock were exercised, at exercise prices of \$1.00 and \$1.114 per share, resulting in aggregate proceeds to the Company of \$1,493,726 (see Note D[4](b)). Mr. Horowitz exercised warrants to purchase 85,220 shares as part of such warrant exercises.

[2] On March 29, 2006, the Company entered into an amendment to its employment agreement with Mr. Horowitz pursuant to which the anti-dilution protection afforded Mr. Horowitz (see Note I [2]) was extended until November 26, 2006 up to a maximum financing of \$2.5 million.

  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and
5. The Registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.
