FOR IMMEDIATE RELEASE

NETWORK-1 RECEIVES PROCEEDS FROM EXERCISE OF WARRANTS

NEW YORK, September 13, 2006 -- Network-1 Security Solutions, Inc. (OTC BB: NSSI), today announced that it had received \$635,000 in proceeds from the exercise of common stock purchase warrants held by FalconStor Software, Inc. (NASDAQ:FALC). The warrants were originally issued in 2001 as part of a private financing and were each exercisable for one share of Network-1 Common Stock at \$1.00 per share.

Network-1's patent infringement litigation against D-Link Systems Inc. and its corporate parent D-Link Corporation, Inc. of Taiwan involving the Company's Remote Power Patent is proceeding on a timely basis in the United States District Court for the Eastern District of Texas, Tyler Division. A Markman hearing will be held on September 19, 2006 and a trial is set for March 9, 2007.

The Remote Power Patent relates to, among other things, the delivery of power over Ethernet cables in order to remotely power network connected devices including, among others, wireless switches, wireless access points, RFID card readers, VOIP telephones and network cameras. In June 2003, the Institute of Electrical and Electronic Engineers (IEEE) approved the IEEE 802.3af Power over Ethernet ("PoE") standard (the "Standard") which has led to the rapid adoption of PoE. According to industry analysts, annual revenues for several of the markets adopting this technology each exceed or are projected to exceed \$1 billion.
