ABOUT NETWORK-1 TECHNOLOGIES, INC.

Network-1 Technologies, Inc. is engaged in the development, licensing and protection of its intellectual property and proprietary technologies. Network-1 works with inventors and patent owners to assist in the development and monetization of their patented technologies. Network-1 currently owns one-hundred twenty-one (121) U.S. patents, fifty-four(54) of which have expired, and fifteen (15) international patents including enabling technology for authenticating and using eSIM technology in Internet of Things (“IoT”), certain advanced technologies related to high frequency trading, technologies relating to document stream operating systems and the identification of media content and enabling technology to support, among other things, the interoperability of smart home IT devices. Network-1's current strategy includes efforts to monetize four patent portfolios (the M2M/IoT, HFT, Cox and Smart Home portfolios). Network-1's strategy is to focus on acquiring and investing in high quality patents which management believes have the potential to generate significant licensing opportunities as Network-1 has achieved with respect to its Remote Power Patent and Mirror Worlds Patent Portfolio. Network-1's Remote Power Patent generated licensing revenue in excess of \$188,000,000 and its Mirror Worlds Patent Portfolio achieved licensing and other revenue of \$47,150,000.
